# ABOUT ME

Born near Venice, raised among art, nature, and beauty, today I split my life between Northern and Southern Italy — Bassano del Grappa and Naples — two places that represent and reflect my Italy: authentic, fascinating, full of character.

I worked for years in international marketing and later as a manager and booker in the world of electronic music.

This led me to travel constantly, experience the luxury world firsthand, and organize complex trips for artists and professionals, managing everything from logistics to hospitality details.

I never stopped planning experiences for friends and contacts as well, becoming the "go-to person" for those looking for something special, refined, and unique.

What I love is what I do: offering tailor-made Italian experiences, curated in every detail, designed for those who travel with taste and seek authentic emotion.

# MY SERVICES

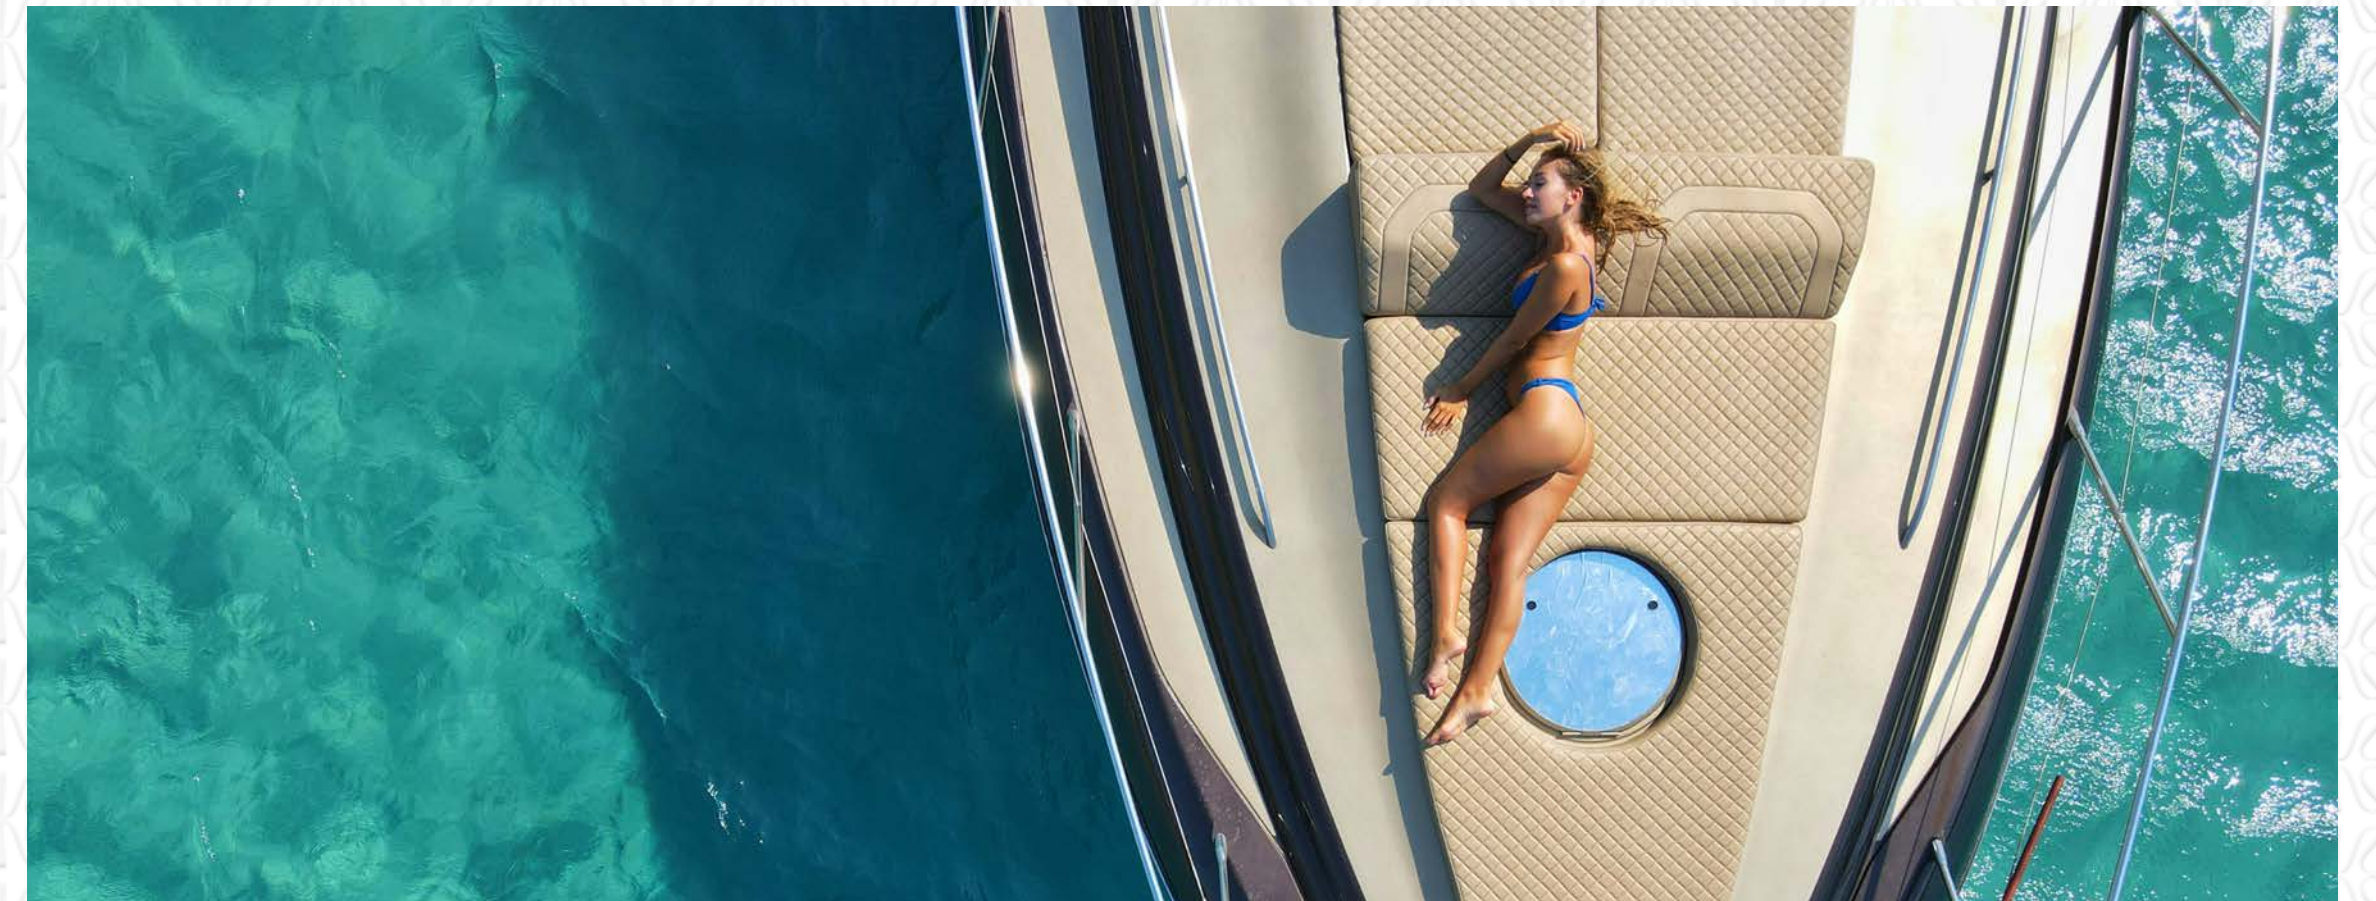

Nini – Luxury Experiences was born from the desire to offer authentic and refined access to Italy, designed for an international clientele seeking much more than just a holiday.

The project comes from a personal vision: that of a true Italy, experienced with grace and a slower rhythm, where luxury is made of emotion, harmony, and discreet beauty.

# WHY ITALY WHY ME

Italy is my home, my way of seeing the world, my deepest identity. I was born and raised here, among artistic cities, elegant nature, and daily gestures full of beauty. But I have also traveled everywhere. I have seen much, experienced different cultures, and understood what those who come from abroad are really looking for. They are not just looking for a beautiful landscape, a good restaurant, or a five-star hotel. They want to feel part of something true. They want to live Italy the way we Italians live it: slowly, with taste, with emotion.

And this is where I come in. I speak English as well as Italian, I understand the needs of those used to the highest standards, and I know how to create experiences that respect culture, timing, and specific desires. But above all, I know where the authentic beauty hides. The one you won't find in catalogs or online. The one you only experience when someone opens the right door for you. If you love Italy, I will guide you to live it as it deserves. As I live it.

# SAMPLE ITINERARIES

My approach is personal: each trip is custom-built, like a tailored suit. I don't offer standard packages, but unique experiences for individual travelers, often on a referral basis.

That's why I also present demonstrative itineraries that reflect my style, my method, and the level of service I provide.

Clients choose me because:

- They recognize my natural taste and eye for detail
- I personally handle every phase
- I'm always available and treat each trip as if it were my own
